Repurpost - User Flow (auto tag suggestion)

Entry → **Repurpost dashboard** → **select Create** → provide Content title + text → **display tags** → Click Tags

User has option to create following textual content:
1. idea
2. Social Post
3. Blog Post
4. Campaign

auto tag suggestions are available from NLP model

Tags (decision) → NO → User provides tags

Tags → YES → **Show tags + related content** → user selects tags → Create Content

User provides tags → Create Content

Create Content → Close
